**Dawn Helms, Information Systems Coordinator**  
**Telephone (803) 329-7270 Fax (803) 328-6225**  
**[Dawn.helms@yorkcountygov.com](mailto:Dawn.helms@yorkcountygov.com)**

**All road names and subdivision names are approved by the York County Office of Emergency Management to prevent road name/subdivision name duplication as well as to prevent the naming of a road that may be phonetically similar to an existing road in the same emergency response area.**

**Developers/individuals may visit [www.yorkcountygov.com](http://www.yorkcountygov.com), in the column to the right under “What’s Popular” select GIS Online Mapping and Property Search. Then select your bandwidth. Select Search at the top of the screen, you may search by Locate Address and then type in the name of the road name you are wishing to use. You may enter just the first few letters of a road name and a list will appear of all of the road names that meet that criteria. The same type of search may be done for a subdivision name.**

**If you prefer not to utilize this search a list of road names may be submitted to Dawn Helms at the above email, fax or phone number.**

**Please reference the name of the main road that the project will be accessed from, the number of road names needed, along with your list of preferred names.**

**Road names and/or subdivision names should be submitted for approval at least two weeks prior to the date you anticipate needing them.**

**Should you have any questions or need assistance with a search please contact me at the above phone number.**
