

York County Register of Deeds accepts eRecordings:

What is eRecording?

eRecording is the process of submitting and recording land records in an electronic format. Benefits of eRecording include:

- Faster delivery, recording and return of documents
- Reduced labor, materials, postage and courier costs
- Fewer document errors and rejections
- Increased security in sending documents and payments
- Improved tracking and filing of documents

How Do I eRecord?

The York County Register of Deeds currently accepts documents from the following eRecording vendors. A computer, scanner and Internet connection are the only requirements to begin eRecording today. Simply contact one of these vendors for information on how to get started:

- [Simplifile](#): 800.460.5657
- [CSC](#): 855.200.1150
- E-recording Partners: 888-325-3365
