

2019 Application for KYCB Beautification Mini-Grant

Keep York County Beautiful is a volunteer board with active interest in protecting our landscapes and waterways.

Keep York County Beautiful mini-grants are designed to assist in funding projects that promote beautification in areas such as rights-of-way, medians, building exteriors, parks or other natural areas in order to improve the York County environment.

Eligible organizations include clubs, neighborhood associations, schools, places of worship, service clubs, nonprofit organizations, businesses and governmental entities. Beautification grants may be awarded up to \$500 (in the form of Lowe's gift cards) contingent upon funding availability. Priority is given to initiatives that include one or more of the following elements:

- Beautification through planting of native species, perennials, trees, vegetable gardens, graffiti removal and prevention or other community greening projects.
- Areas in the public right-of-way or with areas accessible to the public
- Those that include direct involvement of children as beneficiaries of the project or in the maintenance of the project.
- Litter eradication and cigarette litter prevention
- Promotion of pollinator habitats or milkweed protection projects

Keep York County Beautiful grant recipients must maintain the landscaping once it is in place and should acquire any permits that may be necessary before the project can begin. Recipients must mention the Keep York County Beautiful mini-grant and #lovewhereyoulive at least once when promoting the project in outreach/marketing.
