

Do you need a map?

The GIS department does **not** create custom maps.

However, we have created a map gallery (electronic) of many of the most frequently requested maps.

Find Information in our Address Search!

maps2.yorkcountygov.com/ez/

Click **Launch Map** to launch an interactive map of all our geographic data as well as 40+ years of historical imagery!

Maps available on our site:

- Senate Districts
- SC House Districts
- York County Traffic Counts
- Council Districts
- Population Growth from 1970 – 2018
- Precincts
- Land Use Plan Through 2025
- City of York Precincts
- York County Water Districts
- York County Urban Area Map
- Street Atlas

- On your computer, open a web browser and navigate to the York County GIS Map Gallery page.
- Click on the desired map in the Gallery. The map will download as a Portable Document File (PDF) to your computer (in the browser or to a download folder – depending on your browser type and version).
- Once you have opened the PDF, there should be an option to print the PDF or save it. (File/Save options may be menu options or appear as a toolbar at the bottom of the PDF when the mouse is moved nearby – depending on your browser type and version.)
- If you desire a printed map larger than the capacity of your printer then save the map to your computer and then follow the print instructions provided by the vendor of your choice from the list below:
 - **For FedEx: fedex.com**
 - **For Office Depot: officedepot.com**
 - **For Staples: staples.com**
